So you as a person on The Patriot Act WL will just have to live with it. Our Tax Dollars Going To Organized Stalking by Freemasonic Government and Sheriff's Departments you will realize your own family is a COINTELPRO and a Stasis or Zersetzung and you will have to just live with it, for me at least I am doing 1218 and am one step away from homelessness so be it. I am gaslit every day by Narc Family and Gang Stalkers and I just have to live with it, anything they say to me ignore it, live with it, that is all. As for Freedom of Speech, you'll have to live with that also, I was on a new policy to never record any any live two person shows ever period, because somebody there had an ego problem, just so you know and now I face Intellectual Property Disputes and crap like that I flagged a video on Four Platforms and that is that. I am only creating more enemies, my family constantly tells me to kill myself and all I can do is ignore it and if I tell them to off themselves I will be taddled on to my parents, but it's a double standard where they are only allowed to attack me. Also forget the Fake TI community, they are useless, all of them are Gangstalkers, FEDS, COINTELPRO, etc, and obvious Trolls and Shills impersonating actual TIS. ; What I have noticed is there are only webaorg atoday and permacc catboxmoe for the only servers people can use and blockchain is volatile because anyone can moderate and censor it, so a Home Server becomes your other option aka NGINX and then what happens is if you live in Canada They can raid your home server or shut down your ISP for Antisemitism or any made up claim that you so called version of the FBI for your country decided on, people have been raided just for hosting a Revision Website to Their ISP as a Home Server, Port Forwarding, then getting arrested for it. Also Seventeen Countries have a law on Freedom of Speech. If you go to any search engine right now and you search "Holocaust is hoax" or "Talmudic jews" you will find Zero Results, that is by design, you'll just have to live with it, our system is Corporations as we were bankrupt by the Financial System in Nineteen Thirty Three and we are just that, Corporate Communism, Technocracy, Despotism, Zersetzung, COINTELPRO, and The Four DS Depploy, Distract, Disrupt, Destroy just as GCHQ is doing now, Perdiod. ; --Scott A.
